PROFILE

Detail-oriented Software Engineering graduate with hands-on experience in system testing, debugging, and developing data-driven applications. Skilled in Python, SQL, and Java with strong exposure to troubleshooting, system validation, and performance optimization. Adept at collaborating with cross-functional teams, following coding standards, and delivering reliable solutions.

EDUCATION

B.Tech – Electronics & Communication Engineering Vellore Institute of Technology CGPA : 7.48	2021 – 2025 vellore
Intermediate (MPC) Narayana Junior College CGPA : 91%	2019 – 2021
SSC Narayana High School CGPA : 9.50	2018 – 2019

SKILLS

Programming: Python, Java, C
Database: SQL, SQLite
Tools & Platforms: AWS Basics, Excel
Web: HTML, CSS
Concepts:
• Debugging & Troubleshooting
• Software Testing & Validation
• IT Service Management (ITSM – Basic)
• Data Analysis & Performance Optimization

INTERNSHIP EXPERIENCE

jabil India Pvt.LTD • Executed manual test cases and identified defects in application workflows • Performed functional and regression testing to ensure product quality • Collaborated with developers to troubleshoot and resolve issues • Documented test cases, test results, and defect reports • Validated system behavior across simulated environments	11/2023 – 12/2023 pune
--	---------------------------

PROJECTS

Cryptocurrency Price Prediction & Analytics Dashboard

- Built a real-time analytics system with 10-second data refresh using external APIs
- Implemented ARIMA, LSTM, and regression models for predictive insights
- Designed a secure backend using SQLite with authentication
- Developed dashboards for monitoring trends and system outputs
- Focused on data accuracy, performance tuning, and reliability

AI-Based Sign Language Interpreter

- Developed a real-time gesture recognition system using CNN
- Achieved high performance (~30+ FPS) through optimization techniques
 - Improved model accuracy via data preprocessing and evaluation metrics
 - Simulated real-world scenarios for system validation

AI-Powered Sales Analytics Dashboard

Developed a real-time AI-powered Sales Analytics Dashboard using Python, Streamlit, Pandas, Plotly, and predictive analytics techniques to visualize business performance, generate AI-driven insights, forecast future sales trends, and support interactive data exploration with downloadable reports.

CERTIFICATES

- AWS Certified Cloud Practitioner
- Zoho Workshop (May 2023)

ORGANISATIONS

Sahiti Literary & Cultural Club management head	2023 – 2025
IEEE MTTS Chapter (2022–2025) Core Committee Member –	2022 – 2025

KEY STRENGTHS

- Analytical & Problem-Solving Skills
- Time Management & Adaptability
- Collaborative Team Player
